Deviation Details:

Average annual expenditure for purchase of books/e-books and subscription to journals/e- journals during the last five years (INR in Lakhs)

Dear Sir/Ma'am

All books and e-books physically checked by NAAC peer team at the time of visit (Link of video of peer team visit at library https://drive.google.com/file/d/1Fzwh6F_OJ6NIWV-JtpNzBoZfj9QmMaeP/view) and peer team also mentioned in the report on the page number 7/13 that the Library has 682 tiles and 13,380 books and is equipped with three Desktop systems to access E-journals & E-books. E-resources such as EShodh Sindhu, NDL (National Digital Library) are available and may be accessed to e-resources from anywhere through using the Login: upsgri and Password:srg4265 on the given address <http://www.delnet.ac.in> and I informed NAAC before NAAC peer team visit through NAAC support help desk (2112161605) and telephonic conversation to submit or consider the data annual expenditure for purchase of books/e-books and subscription to journals/e- journals but NAAC responded me that all justification or clarification will be considered in appeal.

NAAC demanded for all bill and vouchers and the E-copy of the letter of subscription /member ship in the name of HEI in finding of DVV so I want to inform you that S R College of Professional Studies ,Ambabai , Jhansi is running under the Pt. Deendayal Upadhyay Skishan Trust ,Jhansi (U.P) therefore our billing and purchasing for different services of library are on the name of the Pt. Deendayal Upadhyay Skishan Trust, Jhansi (S.R Group of Institutions, Jhansi) so I therefore request to consider expenditure for purchase of books/e-books and subscription to journals/e-journals.

HEI clarification Input :

It is explained by the management that the SR Group of Institutions is a body that govern all the colleges run under the trust management. The SR Group of institutions is running various colleges. As per policy of the management all the purchases are made centrally by the Group and in the name of Group for better internal control and as per requirements of the banks and to comply with the provisions of the Income Tax Act. The management has instructed to issue PO etc for the purchases of fixed assets, books or other item in the name of governing body i.e. SR Group of Institutions. As per explanation of the management we examined that the purchasing of the assets is centralized and bills are in the name of governing institute.

It was further explained by the management that after acquisition of assets it is allocated to the concern college and above amounts of assets was allocated to S R College of Professional Studies.

After considering the above explanation we have examined the relevant records of allocation of assets & books of accounts and found that though the bills are in the name of Group but duly allocated to the college under consideration.

We have certified above figure from the books of accounts & others record/ documents produced before us by the Group & college.

A Journal of applied topics in business and economics

Copyrighted 1996 - 2017 by the Richards College of Business, University of West Georgia Carrollton, Georgia U.S.A.

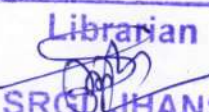

ISSN 1084-3981

When books were handwritten, it took a very long time for one to be completed, and they were so expensive that few could afford them. Then came the printing press. Today the World Wide Web is revolutionizing publishing in the same way the invention of the printing press did.

The Richards College of Business, the University of West Georgia began publishing B>Quest (Business Quest) in 1996. Its primary objective is to serve as an interface between and within different disciplines in schools of business. It makes available, at no charge, throughout the world highly readable articles in the various schools of

PERFORMANCE ENHANCEMENT OF CUDA APPLICATIONS BY OVERLAPPING DATA TRANSFER AND KERNEL EXECUTION
K. RAJUL Niranjan N CHIRUPUNUR

ABSTRACT Click to collapse

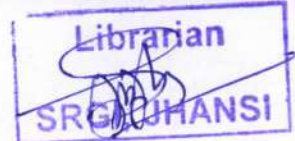

The CPU-GPU combination is a widely used heterogeneous computing system in which the CPU and GPU have different address spaces. Since the GPU cannot directly access the CPU memory, prior to invoking the GPU function the input data must be available on the GPU memory. On completion of GPU function, the results of computation are transferred to CPU memory. The CPU-GPU data transfer happens through PCI-Express bus. The PCI-E bandwidth is much lesser than that of GPU memory. The speed at which the data is transferred is limited by the PCI-E bandwidth. Hence, the PCI-E acts as a performance bottleneck. In this paper two approaches are discussed to minimize the overhead of data transfer, namely, performing the data transfer while the GPU function is being executed and reducing the amount of data to be transferred to GPU. The effectiveness of these approaches on the execution time of a set of CUDA applications is realized using CUDA streams. The results of our experiments show that the execution time of applications can be minimized with the proposed approaches.
